-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 June 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 33-35 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Schoonover et al '314, of record.

Schoonover et al teach a container that could be used for water storage and includes a bottom wall with a recess at 60 and four sidewalls with grooves at 60 to aid in handling the container. Note that the shape of the sidewall grooves are such that they slope toward the bottom wall and that the opening at the top is threaded.

2. Claims 1, 4, 28,31 and 33-36 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Skolnicki et al '792, of record.

Skolnicki et al teach a bottle with a bottom wall having a recess, note 60 for example for gripping and four side walls with a gripping groove at 70A which slopes down toward the bottom wall. Note the opening at the top with a cap and the sloping of the sidewalls toward the top.

3. Claims 3, 5-12, 25,29 and 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 13-24, 26, 27 and 32 are still allowed while claim 2 has been canceled.

5. Applicant's arguments, see page 9 of the amendment6, filed 6/12/07, with respect to 112 rejection have been fully considered and are persuasive. The 112 rejection of the claims has been withdrawn.

Art Unit: 3781

6. Applicant's arguments filed 6/12/07 have been fully considered but they are not persuasive. It isn't understood why applicant discusses reinforcing ridges with regard to Schoonover when it was members 60 that were referred to in the rejection. Moreover at column 3, lines 27-29 Schoonover et al clearly teach that the notches may be used in conjunction with the handle for maneuvering for "storing and or pouring fluid" from the container. Clearly both container of Schoonover et al or Skolnicki et al are capable of having one or more fingers or other fingers of the hand received in the notches or grooves

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "simultaneous use") are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3781

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
